## *Aim*

A youth-friendly version of poker.

## *User's View*
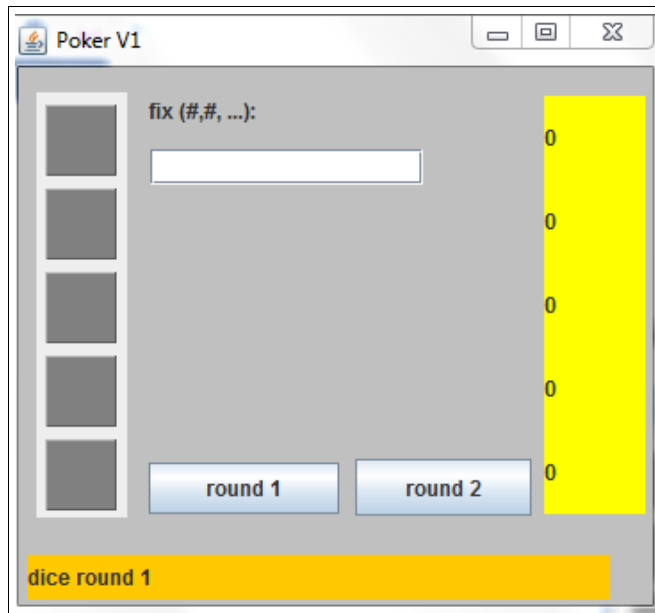

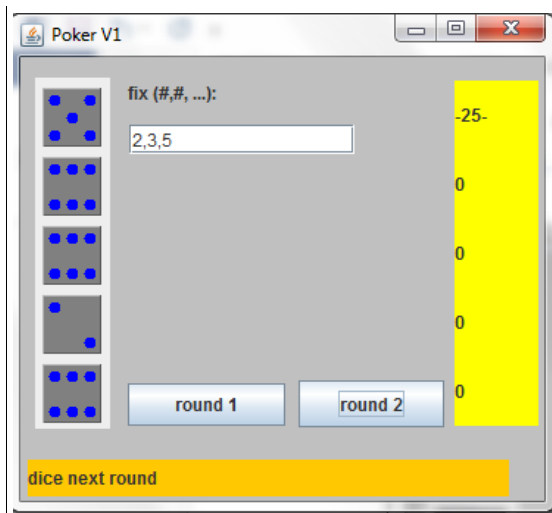

| | |
|---|---|
|  | Start of application:<br>• on the left some (empty) dices<br>• on the right places to display sum of dices<br>• and other stuff. |
|  | press "round 1":<br>• points on dices are displayed<br>• you can fix some dices (textfield),<br>• dice with all other cubes ("round 2"). |
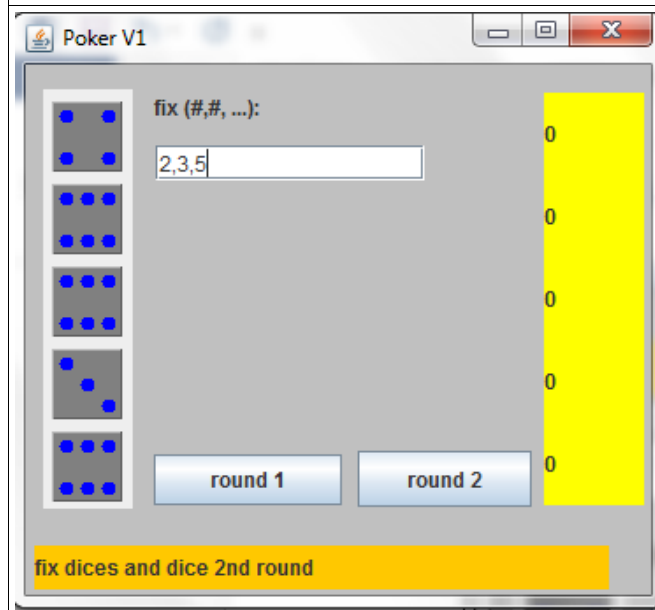

- 1st and 4th cube get new points
- and sum of points is shown

## *To Do*

- begin with code inspection
- implement missing parts
- eg.
  - points displayed on the cubes (image of cube with 1 point already works)
  - die ganze Applikationslogik beim Klick auf die Buttons
- additional features, eg.
  - display total sum after 5 rounds
  - additional button for restarting the game
